"Do something different every day," says Julian Hawthorne. "Get out of bed with a different leg first every morning." Wonder how long he would expect that to be kept up by a man who has two legs."

"A man was heard last week to say that he would as soon think a man evolved from a camel as a monkey. We hadn't. Any camel will work seven days without drinking, while many's the man that will drink seven days without working. If indications count, man descended from a goat, for they are the only creatures who chew tobacco, eat anything, wear whiskers and butt in.

New Council Meets Today

The new Town Council held their first regular session at the Town Hall at 2:30 this afternoon. All the Councilmen were present and after the regular routine of business was passed the council voted on the new Townsite Trust-tee recommended to the Department. N. J. Swindseth was chosen by a vote of 4 to 2. Also the new water system was a topic of discussion. Nine men are at present working on the new site just below the old one.

Marble Quarry Closes Down

Frank Clarke arrived in town on the Uncle Dan Wednesday from the Mission Marble Quarry at Tokeen. Mr. Clarke reports that the real work at the quarry has been suspended as the marble on which they were working was not fine enough to make the milling profitable and will not be resumed unless more favorable prospects are found. Several men were left at the quarry to prospect the surrounding country to find a better grade of rock.

Receives Copy Of New Bill

The Editor of the Sentinel received from Delegate Wickersham in the last mail a copy of the bill which he recently introduced in the House of Representatives to establish a Commission form of Government in the administration of national affairs in Alaska and for other purposes. The bill is a good one and has our hearty support. We should like to publish same but it is too long, however, it will be placed on file and anyone wishing to look it over may do so.

W. H. Oliver had the misfortune to cut his hand on the resaw at the sawmill on the afternoon of May 1st. He is improving fast under the care of Dr. Dawes and will be back to work in a few days.

Following is a copy of the Resolution passed at the special meeting of the Wrangell Chamber of Commerce, April 27, 1914.

WHEREAS, we believe it is practicable at a reasonable expense to dredge the channel known as the Dry Strait to a depth sufficient to afford a clear and unobstructed passage, at any stage of the tide, for the largest ocean steamers that are ever likely to run to Southeastern and Western Alaska, and

WHEREAS, the Dry Strait channel, if improved, would shorten the voyage from Seattle to Juneau and Skagway, and materially reduce the risk to life and property as compared with the route at present followed through Wrangell Narrows, where vessels are frequently delayed waiting for the tide, or compelled to go one hundred and sixty miles out of their way around Cape Decision, and

WHEREAS the Dry Strait channel is only nine miles long, from deep water to deep water, and has a sandy bottom, as compared with a rocky channel twenty miles long in Wrangell Narrows, which is probably at present the most serious obstacle in the improvement of the navigation in the Inside Passage and of the adequate development of the passenger and freight service to Southeastern and Western Alaska, and

WHEREAS, we believe that the commercial interests involved, as well as the strategic advantages to be gained in the movement of war vessels, are now at the present day of sufficient importance to secure the immediate attention of the Government of the United States, be it

RESOLVED, by the WRANGELL CHAMBER OF COMMERCE in special session assembled, that we earnestly ask our representative at Washington, the Honorable James Wickersham, delegate for Alaska, to bring this matter before the proper authorities with a view of getting made an early survey of the Dry Strait by a government engineer, and obtaining such further action as the facts and recommendations may warrant.

RESOLVED, that a copy of this Resolution be forwarded to Delegate Wickersham together with a map showing the location of the proposed Dry Strait channel and a letter further explaining our desire and the very great importance of this project to the entire territory.

RESOLVED further that a copy of this Resolution be forwarded to the various Commercial Clubs and organizations that may be interested in the improvement of navigation in Southeastern Alaska, inviting their cooperation.
